

# **AMHERST MEDICAL PRACTICE**

## **IMPORTANT NOTICE**

**Effective from 6th December 2010**

**THE GP lists at this surgery are currently CLOSED**

**As you may be aware the pressure on General Practice has been increasing. In order to assume a safe and effective service within the resources both human and financial we have had to take this action.**

**Regrettably there are no vacancies on any GP list.**

**All GPs in the practice are working as hard as they can to see as many patients as possible during their normal working day.**

**None of the current Amherst partners can accept any new or transfer patients onto their lists.**

**We do keep the list sizes under review and should there be any change our notice will be revised.**

**We are not able to keep waiting lists but you may enquire again in the future.**

**Thank you for your co-operation and understanding.**
